LACOMBE SCHOOL FAIR

Best Ever Held Here Full List of Prize Winning Students

The School Fair of Lacombe District, was a record breaker.

Larger gate receipts were in evidence this year due to the increased attendance at the Fair, which is very cheering to the officers in charge, who are also much appreciative of the hearty support given by the Lacombe business men in the way of prizes.

Much greater competition than usual, was given in the two classes of cake and jam, and the display of vegetables was exceptionally fine this year. Elkhorn school won the special prize for the best vegetable display. Other classes were up to par, the cooking and sewing entries being especially good. According to Inspector Gibson's statement the school room work was outstanding. Highest points in this class were won by Mae Duffy.

The stock judging contest conducted by H. E. Wilson, in which there were 18 entries, was won by Norman Martin, with a score of ninety points.

The usual program of sports was managed in a highly efficient manner by Mr. Douglas and S. Davidson. His ran in through without a hitch, in the proceedings. H. E. Wilson had charge of the sports for the cup which was won by Ardmore school. The officers of the Association, John Proudfoot, President and Mrs. W. C. Secretary, have not yet determined to which school goes the diplomas for education and agriculture, but announcement will be made later.

Class No. 11—Asters
Joe Stout, Spruceville; Stanley Stewart, Lakeside; George Blackmore, Mountain Grove; Joyce Stewart, Lakeside; Helen Tracy, Lakeside; Vivian Taylor, Lakeside; Sarah Jaffray, Canyon; Laura Hainsworth, Spring Valley.

Class No. 12—Sweet Peas
Earl Shaw, Eureka Valley; John Reister, Ardmore; A. McElroy, Eureka Valley; Laura Reister, Ardmore; Elmer Young, Spruceville; Doreen Stewart, Lakeside; Joyce Stewart, Lakeside; Doris Barclay, Sunny Crest; Norris Bragg, Elkhorn.

Class 14—Wheat Sheaf
Gordon Blackmore, Mt. Grove; Chas. Blackmore, Mt. Grove; Robt. Blackmore, Mt. Grove; Jack Darroch, Mt. Grove; Gladys McElroy, Eureka Valley; Isabel Magilton, Mt. Grove; Geo. Threlfall, Mt. Grove; John Morrison, Mt. Grove; John Wood, Central; Ronald Ogilvie, Elkhorn; Norman Stewart, Ardmore.

Class No. 15—Oat Sheaf
Gordon Blackmore, Mt. Grove; Norman Morrison, Mt. Grove; John Morrison, Mt. Grove; Jack Darroch, Mt. Grove; Isabel Magilton, Mt. Grove; Chas. Blackmore, Mt. Grove; Jas. Hill, Milton; Chas. Blackmore, Mt. Grove; Robt. Blackmore, Mt. Grove.

Class No. 16—Barley Sheaf
Chas. Blackmore, Mt. Grove; Gladys McElroy, Eureka; Robt. Blackmore, Mt. Grove; Jack Darroch, Mt. Grove; John Morrison, Mt. Grove; Norman Morrison, Mt. Grove.

Class No. 17—Rye Sheaf
Chas. Blackmore, Mt. Grove; Robt. Blackmore, Mt. Grove; Jack Darroch, Mt. Grove; John Morrison, Mt. Grove; Norman Morrison, Mt. Grove.

Class No. 18—Sunflower
Rena Zutter, Lincoln; Frank Caine, Sunny Crest.

Class No. 19—Corn Sheaf
Rena Zutter, Lincoln; Robt. Blackmore, Mt. Grove; Chas. Blackmore, Mt. Grove; Jack Darroch, Mt. Grove; Geo. Threlfall, Mt. Grove.

Class No. 20—Collection of Grasses
Joe Stout, Spruceville; Chas. Blackmore, Mt. Grove; Robt. Blackmore, Mt. Grove; Jack Darroch, Mt. Grove; Geo. Threlfall, Mt. Grove.

Class No. 21—Threshed Wheat
Isabel Magilton, Mt. Grove; James Hill, Milton; Robt. Crawford, Spruceville; Kathleen Knadle, Elkhorn; Doris Dickson, Jones Valley; Chas. Blackmore, Mt. Grove; Cecil Switzer, Canyon.

Class No. 22—Oats
James Hill, Milton; Norman Morrison, Mt. Grove; Gordon Blackmore, Mt. Grove; Isabel Magilton, Mt. Grove.

Class 23—Threshed Barley
Robert Crawford, Spruceville; John Morrison, Mt. Grove; Gordon Blackmore, Mt. Grove.

Class No. 24—Threshed Rye
Gordon Blackmore, Mt. Grove.

Isabel Magilton, Mt. Grove.

Class No. 31—Purchased Dairy Heifer
Ronald Ogilvie, Elkhorn.

Class No. 32—Pair Bacon Type Hogs
Norman Morrison, Mt. Grove; John Morrison, Mt. Grove; Jack Darroch, Mt. Grove; Donald Proudfoot, Spruceville; Chas. Blackmore, Mt. Grove; Junior Blackmore, Mt. Grove; Isabel Magilton, Mt. Grove; Norman Stewart, Ardmore; E. Chessor, Lacombe.

Class No. 33—Best Pot
John Morrison, Mt. Grove; John Morrison, Mt. Grove; Don Proudfoot, Spruceville; E. Chessor, Lacombe; Jack Darroch, Mt. Grove; John Reister, Ardmore; Norman Stewart, Ardmore.

Class No. 34—Best Lamb
John Morrison, Mt. Grove; John F. Wood, Central; John Jaffray, Canyon; Lewis Albright, Elkhorn; Mary Ogilvie, Elkhorn; Ronald Ogilvie, Elkhorn; E. Chessor, Lacombe; Jack Darroch, Mt. Grove; Norman Morrison, Mt. Grove.

Class No. 35
Dick Boulter, Mt. Grove; Donald Proudfoot, Spruceville; Chas. Blackmore, Mt. Grove; Norman Stewart, Ardmore; John Morrison, Mt. Grove; Dorothy Parker, Mt. Grove; Isabel Magilton, Mt. Grove.

Class No. 36
Lillian Boulter, Mt. Grove.

Class No. 37
Dick Boulter, Mt. Grove; John Morrison, Mt. Grove; James Eisman, Progressive; Sarah Jaffray, Canyon; Norman Stewart, Ardmore; James Gibson, Mt. Grove; Laurence Proudfoot, Spruceville; Isabel Magilton, Mt. Grove.

Class No. 38
Dick Boulter, Mt. Grove; John Morrison, Mt. Grove; John Jaffray, Canyon; Lawrence Proudfoot, Spruceville; Norman Stewart, Ardmore; Isabel Magilton, Mt. Grove.

Class No. 39
Lillian Boulter, Mt. Grove.

Class No. 40—Turkeys
Sarah Jaffray, Canyon; John Jaffray, Canyon; Jack Darroch, Mt. Grove; Norman Morrison, Mt. Grove; John Morrison, Mt. Grove; Norris Shaw, Central; Gordie Shaw, Central; Morris Shaw, Central; George Threlfall, Mt. Grove.

Class No. 41
Lawrence Proudfoot, Spruceville; Donald Proudfoot, Spruceville; E. Chessor, Lacombe; Robert Crawford, Spruceville; Mary Ogilvie, Elkhorn; Norman Stewart, Ardmore.

Class No. 42—Ducks
Chas. Blackmore, Mt. Grove; Robt. Blackmore, Mt. Grove; Ian Chessor, Lacombe; Kathleen Saunders, Sunny Crest; Dick Boulter, Mt. Grove; Chas. Blackmore, Mt. Grove; Robt. Blackmore, Mt. Grove; Jack Darroch, Mt. Grove.

Class No. 43—Bird House
George Threlfall, Mt. Grove; Jack Darroch, Mt. Grove; Joe Stout, Spruceville; Leonard Duffy, Spring Valley; Dick Robottom, Milton.

Class No. 44—Place of Furniture
Joe Stout, Spruceville; John Morrison, Mt. Grove; Geo. Threlfall, Mt. Grove.

Class No. 46—Handy Device
Geo. Threlfall, Mt. Grove; John Morrison, Mt. Grove; Stuart Gibson, Mt. Grove; Margaret Gibson, Mt. Grove; John Reister, Ardmore; Chas. Blackmore, Mt. Grove; Helen Graves, Lakeside.

Class No. 47—Knots
Jack Darroch, Mt. Grove; Norman Stewart, Ardmore; Geo. Threlfall, Mt. Grove; John Morrison, Mt. Grove; John Morrison, Mt. Grove; John Reister, Ardmore; Margaret Gibson, Mt. Grove; Stuart Gibson, Mt. Grove.

Class No. 48—Splices
Jack Darroch, Mt. Grove; John Reister, Ardmore; Norman Stewart, Ardmore; John Morrison, Mt. Grove; Geo. Threlfall, Mt. Grove; Joe Stout, Spruceville.

Class No. 49—Rope Hatter
Geo. Threlfall, Mt. Grove; John Morrison, Mt. Grove; John Morrison, Mt. Grove; Jack Darroch, Mt. Grove; John Reister, Ardmore.

Class No. 50—Raisin Cake
Lillian Boulter, Mt. Grove; Dorothy Parker, Mt. Grove; Wilma Fiewling, Central; Sarah Jaffray, Canyon; Hazel Liaka, Jones Valley; Joyce Stewart, Lakeside; Betty Gibson, Mt. Grove; Edith Cahan, Ardmore.

Dorothy Parker, Mt. Grove; Hazel Liaka, Jones Valley; Betty Gibson, Mt. Grove.

Class No. 54—School Lunch
Lillian Boulter, Mt. Grove; Dorothy Parker, Mt. Grove; Beatrice Dobson, Lakeside; Edith Cahan, Ardmore; Elaine Mills, Eureka Valley.

Class No. 55—Baking Powder Biscuits
Muriel Pearce, Central; Alice Cull, Spring Valley; Norman Morrison, Mt. Grove; Irene McElroy, Lakeside; Bob Liaka, Jones Valley; Stewart Gibson, Mt. Grove; Margaret Chiswell, Central.

Class No. 56—Chocolate Fudge
Teddy Oulton, Ardmore; Dick Boulter, Mt. Grove; Irene McElroy, Lakeside; Margaret Chiswell, Central; Muriel Pearce, Central; Norman Morrison, Mt. Grove; Laura Robottom, Milton; Kaye Booma, Eureka Valley.

Class No. 57—Date Loaf
Norman Morrison, Mt. Grove; Alice Cull, Spring Valley; Stewart Gibson, Mt. Grove; Vera Beach, Elkhorn; Margaret Chiswell, Central; Muriel Pearce, Central.

Class No. 58—Drop Cookies
Dick Boulter, Mt. Grove; Stewart Gibson, Mt. Grove; Norman Morrison, Mt. Grove; Margaret Chiswell, Central; Laura Reister, Ardmore; Charles Blackmore, Mt. Grove; Alice Cull, Spring Valley.

Class No. 59—School Lunch
Dick Boulter, Mt. Grove; Norman Morrison, Mt. Grove; George Threlfall, Mt. Grove; Irene McElroy, Lakeside.

Class No. 60—White Bread
Joe Stout, Spruceville; Margaret Gibson, Mt. Grove; Evelyn McElroy, Lakeside.

Class No. 61—Graham Bread
Margaret Gibson, Mt. Grove.

Class No. 62—Oatmeal Cookies
Orpha Butcher, Ardmore; Teddy Oulton, Ardmore; John Morrison, Mt. Grove; John Morrison, Mt. Grove; John Reister, Ardmore; Margaret Gibson, Mt. Grove; Isabel Magilton, Mt. Grove.

Class No. 63—Apple Pie
John Morrison, Mt. Grove; Isabel Magilton, Mt. Grove; Margaret Gibson, Mt. Grove; Laura Gibson, Mt. Grove; Mary Beach, Elkhorn; Joe Stout, Spruceville.

Class No. 64—Cream Candies
Isabel Magilton, Mt. Grove; John Morrison, Mt. Grove; Katherine Knadle, Mt. Grove.

Class No. 65—School Lunch
John Morrison, Mt. Grove; Norman Stewart, Ardmore; Evelyn McElroy, Lakeside; Isabel Magilton, Mt. Grove.

Collection of Canning
Alice Cull, Spring Valley; Mary Beach, Elkhorn; Gladys McElroy, Eureka Valley; Margaret Gibson, Mt. Grove; Laura Gibson, Mt. Grove.

Class 67—Hammed Towel
Dorothy Parker, Mt. Grove; Muriel Cull, Spring Valley; Eunice Stout, Spruceville; Vivian Boomer, Eureka Valley; Elmer Boomer, Eureka Valley; Betty Gibson, Mountain Grove; June Grimes, Mt. Grove.

Class No. 68—Doll's Dress
Muriel Cull, Spring Valley; Ethel Danielson, Canyon; Joyce Stewart, Lakeside; Vivian Boomer, Eureka Valley; Dorothy Parker, Canyon; Elmer Boomer, Eureka Valley; Betty Gibson, Mountain Grove; June Grimes, Mt. Grove.

Class No. 69—Doll's Dress
Muriel Cull, Spring Valley; Ethel Danielson, Canyon; Joyce Stewart, Lakeside; Vivian Boomer, Eureka Valley; Dorothy Parker, Canyon; Elmer Boomer, Eureka Valley; Betty Gibson, Mountain Grove; June Grimes, Mt. Grove.

Class No. 70—Slip-Over Apron
Alice Cull, Spring Valley; Gwen Caverhill, Spring Valley; Jean Caverhill, Spring Valley.

Class No. 71—Hammed Patch on Cotton
Alice Cull, Spring Valley; Hazel Liaka, Jones Valley.

Class No. 72—Woven Darning
Alice Cull, Spring Valley.

Frieda Peters, Spring Valley.

Class No. 73—Hammed Patch on Cotton
Doris Smith, Jones Valley; Eunice Stout, Spruceville; Ina McElroy, Eureka Valley; Elmer Boomer, Eureka Valley; Mae Duffy, Spring Valley; Frieda Peters, Spring Valley; Tina Harder, Spring Valley; Dorothy Byrne, Lakeside; Margaret Gibson, Mt. Grove.

Class No. 74—Thrift Problem
Doris Smith, Jones Valley; Gladys McElroy, Eureka Valley; Dorothy Byrne, Lakeside; Joe Stout, Spruceville; Marion McElroy, Eureka Valley; Margaret Gibson, Mt. Grove; Helen Graves, Lakeside.

Class No. 75—Thrift Problem
Joe Stout, Spruceville; Margaret Gibson, Mt. Grove; Margaret McLean, Jones Valley; Jane Shoenst, Ardmore; Mae Duffy, Spring Valley; Louise Danielson, Canyon; Margaret MacEachern, Canyon; Ella Danielson, Canyon.

Class No. 76—Thrift Problem
Margaret Gibson, Mt. Grove; Dorothy Byrne, Lakeside; Eunice Stout, Spruceville; Joe Stout, Spruceville.

Class No. 77—Thrift Problem
Herbert Peters, Spring Valley; Marion Smellie, Spring Valley; Tommy Robertson, Spring Valley; Arthur Koehner, Spring Valley; Donald Sharp, Spring Valley; Harold Roberts, Spring Valley; Donald Brooks, Spring Valley; Grace Kiehl, Spring Valley; Connie Harder, Spring Valley.

Class No. 78—Thrift Problem
Thelma Graves, Lakeside; Bobby Hutchinson, Lakeside; Doreen Stewart, Ardmore; Robt. Pierson, Spring Valley; Cecil Switzer, Canyon.

Class No. 79—Thrift Problem
Jean Caverhill, Spring Valley; Frieda Peters, Spring Valley; Laurie Hainsworth, Spring Valley; Isabel Magilton, Mt. Grove; Lorraine Langrock, Lakeside; Paul Duffy, Spring Valley; Jas. Hill, Jones Valley; J. Blackmore, Mt. Grove.

Class No. 80—Drawing of Fruit in Crayon
Stanley Stewart, Lakeside; Ronald Pierson, Spring Valley; Herbert Peters, Spring Valley; Donald Sharp, Spring Valley.

Class No. 81—Paper Landscape
Robt. Pierson, Spring Valley; Louise Danielson, Canyon; Geo. Clark, Canyon; Marion Dickson, Jones Valley.

Class No. 82—Construction Work
Clarence Duffy, Jones Valley; Forest Smith, Jones Valley; Elmer Henderson, Lakeside; Marion Dickson, Jones Valley; Ella Danielson, Canyon; Allister Middleton, Jones Valley; Gerald Card, Jones Valley; Thelma Graves, Lakeside; Robt. Pierson, Spring Valley.

Class No. 83—Plasticine Work
Donald Brooks, Harold Robertson, Tom Robertson, Roland Pierson, Arthur Koehner, Grace Kiehl, Herbert Peterson, Muriel Cull, Connie Harder, All of Spring Valley.

Class No. 84—Flowers in Crayon
Barbara Robertson, Spring Valley; Ardis Whitney, Spring Valley; Baul Adams, Whitney Valley; Lillian Boulter, Mt. Grove; Robt. Henderson, Lakeside; Wella Graves, Lakeside; Hazel Liaka, Jones Valley.

Class No. 85
Wal, Graves, Lakeside; Hazel Liaka, Jones Valley; Ole Halberg, Lincoln; Barbara Robertson, Spring Valley; Robt. Henderson, Lakeside; Ardis Whitney, Spring Valley; Jean Spink, Lincoln.

Class No. 86
Jas. Caverhill, Spring Valley; Junior Sawyer, Jones Valley; Cecil Ball, Jones Valley; Cecil Bailey, Jones Valley; Gordon Blackmore, Mt. Grove; Roger Dickson, Jones Valley; Dorothy Parker, Mt. Grove; Robt. Bailey, Jones Valley; Joe McElroy, Eureka Valley; Betty Gibson, Mt. Grove.

Class No. 87
Jim Caverhill, Spring Valley; Irene McElroy, Lakeside.

Class No. 88—Animal in Pencil
Gwen Caverhill, Spring Valley; Alfred Eyre, Lakeside; Rena Zutter, Lincoln; Ellen Gustafson, Lincoln; Dick Boulter, Mt. Grove; Howard Duffy, Spring Valley; Jacob Marshall, Jones Valley.

Class No. 89—Lampshades
Jesie Borden, Canyon; Howard Card, Jones Valley; Cameron Lansell, Lakeside; Hazel Middleton, Jones Valley; Gene Randall, Spring Valley; Lorena Henderson, Lakeside; Ardis Whitney, Spring Valley; Jean Spink, Lincoln.

Class No. 90—Group in Pencil
Cameron Lansell, Lakeside; Alfred Eyre, Lakeside; Howard Card, Jones Valley; Robt. Henderson, Lakeside; Lorena Henderson, Lakeside; Ardis Whitney, Spring Valley; Jean Spink, Lincoln; Eldon Sawyer, Jones Valley; Albert Proudlove, Spring Valley.

Class No. 91—Landscape, Trees
Lorena Henderson, Lakeside; Evelyn McElroy, Lakeside; Jean Caverhill, Spring Valley; Mae Duffy, Spring Valley; Vivian Taylor, Lakeside; Harold Schelling, Lincoln; Ar-

thur Henderson, Lakeside; Margaret McGowan, Lincoln; Annie Bruisma, Lakeside.

Class No. 100—Spacing on Wall
Mae Duffy, Spring Valley; Donald Langrock, Lakeside; Geo. Threlfall, Mt. Grove; Marjorie Dobson, Lakeside; Paul Duffy, Spring Valley; Jas. Hainsworth, Spring Valley; Margaret Hainsworth, Spring Valley; Margaret Gibson, Mt. Grove; Jean Caverhill, Spring Valley.

Class No. 101—Poster, Grade 8
Geo. Threlfall, Mt. Grove; Freda Peters, Spring Valley; Leland Duffy, Spring Valley; Annie Bruisma, Lakeside; Mae Duffy, Spring Valley; Lorraine Langrock; Margaret Gibson, Mt. Grove; Jack Darroch, Mt. Grove.

Class No. 102—Poster, Grade 9
Beryl Wilkinson, Spring Valley; Gordon Willie, Canyon; Helen Borden, Canyon; Ernest Ball, Canyon; Gordon Willie had two entries in this class.

Class No. 110—Initial Letter
Helen Borden, Canyon; Ernest Ball, Canyon.

Class No. 111—Writing
Chas. Duffy, Jones Valley; Robt. Blackmore, Mt. Grove; Jack Darroch, Mt. Grove; Mildred Sawyer, Jones Valley; Archie Gibbons, Mt. Grove; Catherine Russell, Jones Valley; Ella Nessel, Eureka Valley; Cecil Switzer, Canyon.

Class No. 112—Writing
Cliff Duffy, Jones Valley; Lillian Boulter, Mt. Grove; James Gibson, Mt. Grove; Marion Dickson, Jones Valley; Jerald Card, Jones Valley; Ross Young, Spruceville; Marjorie McElroy, Eureka Valley; Elaine Mills, Jones Valley; Forrest Smith, Jones Valley.

Class No. 113—Writing
Doris Hopp, Lincoln; Ole Halberg, Lincoln; Hazel Liaka, Jones Valley; Barbara Robertson, Spring Valley; Annie Hutchinson, Spruceville; Lawrence Proudfoot, Spruceville; Robt. Henderson, Lakeside; Ardis Whitney, Spring Valley; Hazel Adams, Spring Valley.

Class No. 114—Penmanship, Gr. IV
Margaret McEachern, Canyon; Jess Grimes, Mt. Grove; Betty Gibson, Mt. Grove; Dorothy Parker, Mt. Grove; Margaret Boucher, Mt. Grove; Glen Sampson, Mt. Grove; Dorothy Eyre, Lakeside; Irene McElroy, Lakeside; Robt. Bailey, Jones Valley.

Class No. 115—Writing
Marion England, Jones Valley; Doris Dickson, Jones Valley; Lola Marshall, Jones Valley; Doris Smith, Jones Valley; Laura Gibbons, Mt. Grove; Hazel Middleton, Jones Valley; Margaret Woody, Mt. Grove; Howard Card, Jones Valley; Norman Morrison, Mt. Grove.

Class No. 116—Writing
Evelyn McElroy, Lakeside; Margaret Gibson, Mt. Grove; Jack Darroch, Mt. Grove; Gladys McElroy, Eureka Valley; Helen Graves, Lakeside; Gladys Dool, Lincoln; Margaret Gibson, Mt. Grove; George Threlfall, Mt. Grove; Isabel Russell, Jones Valley.

Class 117—Penmanship, High School
Gladys McElroy, Eureka Valley; Myra Yellow, Eureka Valley.

Class No. 118—An Adventure I Have Had
Lillian Jones, Canyon; Harold Olafson, Canyon; Robt. Liaka, Jones Valley; Adell Mills, Eureka Valley; Jacob Marshall, Jones Valley; Sarah Jaffray, Canyon; Doris Dickson, Jones Valley; David Clark, Canyon; Marion England, Jones Valley.

Class No. 119—Proper Care of Teeth
James Hainsworth, Spring Valley; Louise Randall, Spring Valley; Margaret McLean, Jones Valley; Baul Danielson, Canyon; Margaret Rathwell, Jones Valley; Paul Duffy, Spring Valley; Beale Biglands, Spruceville; Frieda Peters, Spring Valley; Jean Caverhill, Spring Valley.

Class No. 120—Composition, IX, X

Class No. 124—Map of Europe
Mae Duffy, Spring Valley; Jean Caverhill, Spring Valley; Geo. Threlfall, Mt. Grove; Laurie Danielson,

STANLEY LAIRD FACES MANSLAUGHTER CHARGE

Coroner's Jury Brings in Open Verdict in Fatal Accident Inquiry

The inquest into the death of Guy Ayres, who met death by a fractured skull on the highway some miles south of Lacombe, resulted in an open verdict.

The first witness called at Friday's inquest was Mrs. Guy Ayres. She was carried into courtroom attended by Dr. Locke and seemed badly cut up and bruised. Her evidence was to the effect that she saw the car driven by Stanley Laird coming from the South, when it was several hundred yards away, and that her husband, (Guy Ayres) pulled over to his left side of the road, most into the ditch. She says that the approaching car was not running in a straight line, but seemed to swerve slightly to each side of the centre of the road. She said that after the crash she came outside the wrecked car, she was on her knees, and saw her husband, lying at the roadside and her husband some distance away. Noticing that they were in a serious condition, she made her way to where she saw a man and two women standing, by the other wrecked car, and she asked the women to give her something for the injured people. The woman she spoke to, replied they had nothing. She said she could smell liquor on the bottom and seat of the car. She then started down the road north, toward the Grime's Farm, and met Mr. Eric Grimes coming towards the wreck. She asked him to help her, which he did.

Asked about the speed which her husband was driving, she said he was driving slowly, as she was in a serious condition and did not wish to be shaken up. She was subjected to a cross examination, but did not hesitate in her answers, and seemed to have every control over herself. Her statements could not be shaken, and she seemed entirely sane of her ground.

Eric Grimes was next called, he told that he was going across to the barnyard when he heard the crash, and looked around toward the wreck. He went into the house and told his wife that there was a crash down the road, and he and his hired man, Mr. Marshall, went to look. He met Mrs. Ayres, and corroborated part of her evidence. He said in his statement that Mr. Laird seemed perfectly sober.

Const. James was next called. He told about visiting the wreck and taking measurements. He also stated that he noticed marks on highway south of the wreck which he judged were caused by a car skidding while going at a fast rate of speed. He said the marks were on the west side of the road and curved toward the centre (East). He said he also noticed scratches on the road starting near the west side of the highway, near where the Ayres car was in the ditch; this scratch was running in a curve, starting on the left side and swinging to right hand side (East) ending near where the Laird car was in the ditch. He also stated that a bottle of Emu Burgundy was found in the grass beside the fence near the wrecked Laird car. He gave the Laird mechanic, W. Gustafson permission to remove the headlights, battery and number plates from the wreck.

Mr. Meredith, in his evidence told that he was going north and came upon the wrecked car, and that he took one of the injured people in the hospital and had the ambulance sent out.

The Liquor Vendor from Red Deer was next called, and stated that a man, giving his name as Stanley Laird, of Lacombe, had presented a permit and written order from L. E. Calkins, of Lacombe, calling for the

purchase of a bottle of Emu Burgundy and a bottle of rum. He personally attended to the order.

Walter Clark was called and corroborated the statement of Const. James in regard to the scratches toward the North of the wrecked Ayres car.

Art Kries was also a witness who corroborated the evidence of Const. James in regard to the marks North of the Ayres car.

Grant Baile also reported of seeing the wreck shortly afterwards. Chas. Moir, Proprietor of the Imperial Hotel, Blackfalds, stated that on two occasions that afternoon he served, two rounds (eight beers), to the party, later identified as Laird, Cannon, Miss Theodore and Miss Knight. He said that Mr. Laird was sober as far as he knew.

Ray Saunders was then called and stated that he went out to the wreck the day following the accident and helped to bring the Ayres car into Lacombe. On the day following he returned again to the wreck to pick up parts of the wreck and noticed a door of the Chevrolet (Ayres car) in the ditch, with a hub cap from a "Marquette" car jammed into the edge of the door, between the bottom and seat of the car.

Const. Green, police photographer identified the photographs taken at the scene of the accident. Joe Corwyn and Mr. Gustafson were next called, but shed little additional light on the matter.

E. Cannon stated that he was an occupant of the Laird car, and that he and Miss Theodore were in the rear seat of the car. He said that they had stopped at Blackfalds on their way to Red Deer and had a couple of beers. At Red Deer they stopped at the Vendors where Laird procured the bottle of liquor, and that they stopped again between Red Deer and Blackfalds where they opened the wine and rum. They may have stopped for twenty minutes at this time. Everyone had some of the wine, but when the rum was passed around Stanley Laird refused to drink any of it. They stopped for a couple of beers at Blackfalds, during which time Mr. Laird ordered a beer for another occupant of the beer parlor. They may have been in the beer room about fifteen minutes this stop. None of them were under the influence of liquor. At no time during the trip was the car travelling more than 35 miles an hour, and was under perfect control at all times. Miss Theodore gave evidence similar to that of Mr. Cannon and said that Mr. Laird was entirely sober, and did not go faster than 30 miles an hour at any time. He was not under the influence of liquor. She said that Mr. Laird did not drink any of the rum.

Miss Knight, stated that she and Mr. Laird occupied the front seat of the car and that he was in perfect control of it at all times. They did not exceed thirty miles an hour at any time. The Ayres car seemed to be on the left side of the road and ran into them. Under cross examination she stated she wasn't sure about either of the cars before the wreck.

The inquest was closed at this time and the jury retired, returning in twenty minutes with a verdict, that "Mr. Ayres came to his death from a fractured skull, following a collision between cars driven by Stanley Laird and Guy Ayres, on the highway some two miles south of Lacombe on Monday, September 19th, 1932."

At the preliminary which followed the inquest, Stanley Laird was recommended for trial.

Opening of Bentley's Modern Hospital, Wednesday, Oct. 19

Wednesday next will be a Red Letter Day in Bentley's history, being set as the day for the opening of their new modern hospital. This week the finishing touches are being put on the building, the heating plant is being installed, and all that is not complete is the furnishing of the building. The removing of equipment from the old hospital building is under way and will be completed as quickly as possible. With

Farms and Farm Mortgages

In these days when so much is heard of the burden of mortgage indebtedness carried by the farmers of the Dominion, and more especially of Western Canada, the official figures contained in the bulletin recently issued by the Dominion Bureau of Statistics at Ottawa, and which are based on information compiled in the census taking of last year, are of more than passing interest. Furthermore, they are important and encouraging in that they dissipate the prevailing impression that, with but few exceptions, the farms of Western Canada are under heavy mortgage. The fact is that two out of every three farms in Canada have no mortgage debt, and while the number of mortgaged farms is naturally higher in a more recently settled country like the three prairie provinces, even in these provinces less than one-half of the farms are mortgaged. This is quite different from the oft-repeated assertions that 80 to 90 per cent. of all Western farms are mortgaged.

This census bulletin is replete with interesting and valuable information, but space will permit mention of only a few of the highlights of the report. Of the 728,664 farms in Canada in 1931, 101,000 were mortgaged, valued at \$28,299,299, part owners and part tenants 67,942, and tenants only 74,352, with 41 unclassified in the Yukon.

While the number of "full owners" decreased by 28,842 in the ten years elapsed since 1921, the number of part owners and part tenants increased by 27,978 and tenants only by 18,437. In the three prairie provinces fully owned farms comprise 77,064,501 acres, and rented farms 33,713,401 acres. Of the partly owned and partly rented farms in these three provinces, 16,078,801 acres are owned and 15,773,536 acres are rented.

The average size of all farms in Canada is 224.48 acres, the average size in Ontario being 118.88 acres and in Quebec 130.58 acres, but in the West the average is much larger, it being 279.19 acres in Manitoba, 400.15 acres in Alberta, and 407.95 acres in Saskatchewan.

The value of land in farms in Canada is stated to be \$2,704,760,300. Saskatchewan ranked first with \$781,124,800, Ontario second with \$577,487,900, Alberta third with \$525,272,800, Quebec fourth with \$422,100,400, and Manitoba fifth with \$200,270,300.

The value of buildings on farms in Canada totals \$1,341,463,000, Ontario coming first with \$457,009,300, Quebec second with \$206,178,200, Saskatchewan third with \$223,944,900, Alberta fourth with \$137,333,900, and Manitoba fifth with \$88,369,200.

Combining land and buildings values, Ontario is first, Saskatchewan second, Quebec third, Alberta fourth, and Manitoba fifth.

Coming back to the subject mentioned in the opening paragraph of this article, "Mortgages," it is to be noted that at the census of 1931 every farm owner in Canada was asked, for the first time, to state the total mortgage on his farm. The mortgage debt reported under this inquiry included not only the debt secured by an instrument called a "mortgage" but also debts protected by deeds of trust, judgments, or by other legal instrument that partakes of the nature of a mortgage and which has the same legal effect. The answer to this question did not include debts covered by crop liens, nor debts secured by liens on implements, machinery or live stock. Nor did the inquiry apply to farms or parts of farms rented.

The tabulated results show that 244,201 farms out of the total of 728,664 farms in Canada, or 33.4 per cent. of the value of all farms, and approximately 50 per cent. of the value of owned farms to which the inquiry was restricted.

Out of a total of 192,174 farms in Ontario, 71,604 reported mortgages, amounting in all to \$201,751,900, or 37.26 per cent. of the total. The average mortgage in Ontario was \$2,815, and the ratio of mortgage to the value of all farms 18.96 per cent. The figures for Quebec and the Maritime Provinces are considerably lower.

Contrasting Ontario with the three prairie provinces we find: Manitoba—54,199 farms; 18,949, or 34.96 per cent. of the total, reporting mortgages amounting to \$60,070,100; average mortgage \$3,170; ratio of mortgage to value of farms 20.51 per cent.

Saskatchewan—136,472 farms; 56,587, or 41.46 per cent. of the total, reporting mortgages amounting to \$17,020,800; average mortgage \$3,130; ratio of mortgage to value of farms 17.67 per cent.

Alberta—97,408 farms; 34,305, or 35.22 per cent. of the total, reporting mortgages amounting to \$108,463,700; average mortgage \$3,162; ratio of mortgage to value of farms 16.37 per cent.

It will be seen, therefore, that in these newer provinces the percentage of farms mortgaged is not much higher than in old settled Ontario; that the average mortgage is not much larger; and that the ratio of mortgage to the value of the farms is lower in Alberta and Saskatchewan and only slightly higher in the case of Manitoba—a truly remarkable showing for this newer country, much of it still in the pioneering stage of development, and a showing that should be full of encouragement for the future.

Diet Requires Fats

Fats Constitute a Protection Against Tuberculosis

A notable fact is that diet plays a most important part in combating tuberculosis. After the German occupation of Warsaw there was an alarming increase in tuberculosis, because the Germans removed much fat of all kinds from the food with which to make high explosives. When the people of Warsaw were able to return to a diet containing sufficient fat, the tuberculosis declined rapidly. It is generally accepted that a diet rich in fats constitutes a definite protection against tuberculosis. Efforts made to reduce diet in factories are also cited as a contributory cause of the decline, as well as sanitation, water supply, and personal hygiene—Montreal Star.

Where Aurora Is Clearest

Returning from his cosmic ray expedition along the northwest shore of Hudson Bay, Dr. Arthur H. Compton, Chicago scientist, was in Winnipeg on his way to his home in Michigan. The point of greatest intensity of "northern lights" is directly about Churchill, he declared. From where he was at Chesterfield Inlet, the lights were to be seen only by looking directly south.

The first thing a man with a new automobile runs into is debt.

Increase in Indian Population

More Indians in Canada Now Than Ever Before

Department of Indian Affairs officials expressed the opinion there are more Indians in Canada now than when the first white man landed in this country. The 1931 census of the Dominion gives the total number of Indians as 122,920, compared with the last department census total of 108,012.

United States has an Indian population of 332,297 according to the 1930 census. Canada's population is 19,500,000.

Ontario, 3,368; British Columbia, 24,599; Manitoba, 15,417; Saskatchewan, 15,268; Alberta, 15,258; Quebec, 12,312; North West Territories, 4,046; Nova Scotia, 2,191; New Brunswick, 1,685; Yukon, 1,543; Prince Edward Island, 233.

Barrister—What possible excuse did you fellows have for acquitting that murderer?

Juryman—Inanity.

Really! The whole twelve of you?

Chemistry Professor—"What can you tell me about nitrates?"

Student—"Well—er—they're a lot cheaper than day rates."

To promote gold mining in Brazil the government is granting many privileges and concessions.

Static Eliminator Proves Successful

Device Was Invented by British Post Office Engineer

The base of every radio listener is static. Nothing is more annoying to one who has made up his mind to enjoy a particular programme than to have it utterly ruined by interference.

Despite the tendency of a few American writers to sniff a little at the British Broadcasting Company, there are several ways in which British listeners have the advantage over listeners on this side of the Atlantic. There is the absence of advertising, of course, and the B.B.C. can do what American networks have not yet made a practice of—and two programmes over the same wavelength, thus giving more room on the air and eliminating interference. Now they have a static eliminator which so definitely does what it claims to do, that the British Post Office has officially taken up the invention and is urging listeners to buy one and attach it to their sets. The device was the brainchild of a Post Office engineer working in a Government research laboratory. It is guaranteed to eliminate interference from street lamps, vacuum cleaners or any other electrical appliances.

Radio is making gigantic strides in Great Britain. British manufacturers have figured on a turnover this year of \$150,000,000, or 1,800,000 new sets, at an average price of only \$85, compared with an average of \$125 last year.

There are 300 exhibitors at the radio exhibition in London's Olympia this fall. Britain has about 6,000,000 receiving sets in use now, and listeners can tune in on some 200 stations in Europe—St. Thomas Times-Journal.

A Big Undertaking

Factory Moved With No Loss Of Working Time

A complete engineering factory has been removed from London to Chippenham, 94 miles away, without the loss of a single working hour.

At the end of every working day for three weeks a number of the machines were dismantled and removed to the new factory. They were immediately installed and were ready for work again the following morning.

Every employee, with his family and household effects, moved to Chippenham, during the time that the particular piece of machinery which it was his work to tend was being removed. Thus he finished work in London in the evening and started work at Chippenham the following morning.

Altogether, 750 tons of machinery, the furniture of 36 families, and more than 100 people were moved.

This Pillow Was Valuable

Discarded By Auction Buyer But Contained Small Fortune

It is the pillow, not the mattress or the old sock which is the national bank of France. When a Paris auctioneer knocked down a set of old bedroom furniture to the highest bidder the purchaser of the evening and started work at Chippenham the following morning.

Some boys playing around the auction rooms began kicking the rejected pillow and its worn fabric burst. Out tumbled one hundred thousand francs in notes worth even at depreciated rates of exchange \$4,000 in North American money. The moral is that when you buy a pig in a poke you should at least poke the pig to make sure that he is not stuffed with gold.

Persian Balm creates and preserves lovely and youthful complexion. Tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Swiftly absorbed by the tissues, making the skin wonderfully soft-textured. Unrivalled as an aid to feminine elegance. Delightful to use. Imparts additional charm to the daintiest of women. Persian Balm is the one toilet requisite for the exacting woman. Fearless as a beauty.

Canada's Wood Pulp Exports

The total quantity of wood-pulp exported from Canada in 1930 according to the figures lately issued by the Dominion Bureau of Statistics, in co-operation with the forest service department of the interior, was 760,220 tons, valued at \$39,069,978. The average value was thus \$51.38 per ton.

Douglas' Egyptian Liniment makes the finest blaster known. Invaluable for stroke. Leaves the hair roots in natural and healthy condition. Hair comes back. No scar remains.

A Pertinent Question

An elderly lady walked into the Bank of England and presented a parcel of War Loans. "This is for conversion or redemption, madam?" asked the official. "Young man," was the reply, "is this the Bank of England or the Church of England?"

Stranger: "I've come out here to make an honest living."

Native: "Well, there's no competition."

Greece's most important motion picture theatres are being equipped for talkies.

The poison used by some South American Indians for their arrow tips was called curari.

"The prettiest dress at the picnic" everybody said

"I must tell you about going to a big, all-day picnic," writes a woman from Ontario. "I thought I couldn't go because I had nothing to wear and couldn't afford a new dress. The day before, the druggist showed me a wonderful new tint powder made by the people who make Diamond Tints. I have often used it in dyeing dark colors. These new Diamond Tints, he explained, are the same high quality as Diamond Dyes. The difference is they are for light shades and don't require hot water. I had a dress, left from last year, which faded and was so streaked and ugly I decided to wear it. I decided to try Diamond Tints on it. I loved the green! I got to the picnic after all and everybody said my dress was the prettiest one there, thanks to these new Diamond Tints."

Women Loggers Work At Vancouver Inlet

Are Making Good and Not Avoiding Tough Spot

Logging has always been classed as work for men—and hard-muscled, brawny men at that. But over at Deep Cove, across the Inlet from Vancouver, husky young women are engaged in this industry. And they aren't avoiding the tough spots either.

One woman recently exhibited five cords of shingle bolt which represented her work for the week. "It's hard work all right," she admitted, "but it goes easier as you go along. At first it was heart-breaking and I felt that my back would snap in two, but my muscles are pretty hard now. It's healthy all right and I'd sooner be working here in the woods than somewhere down in the stuffy city."

The women loggers and all but a few specimens of their sex. One woman is the mother of three children. She is only about five feet tall, and if there are muscles in her arms they are well concealed. But with the aid of a patient horse she managed to handle a prodigious amount of fallen timber during a day.

Help For Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Rush Seems To Be Over

People Are No More Crowding Into United States

Apparently the rush to America as a land of opportunity for people of all races has come to an end. Free land which is still available is not worth cultivating. Jobs are at a premium here as they are in every other part of the world. The American economic system has arrived at a period of maturity when phenomenal growth can no longer be expected. The waste places have been filled up, and industry has grown to a point considerably beyond consumption needs. Henceforth the economic development of the United States should be slower and more steady—Washington, D.C. Post.

Betrayed By Fingerprints

Long-Wanted Robber Was Caught After Ten Years

Fingerprints that were ten years old recently caught up with Thomas McTee. He had been arrested by Omaha police on a vagrancy charge. When his fingerprints were sent to Washington to be checked it was found that McTee was wanted in Oregon, Mo., on a ten-year-old charge of robbing a box car. Sheriff O. H. Abbott of Oregon called for McTee to serve a prison term.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Expeller.

Visitors to the library of the British Museum number more than 3,000,000 every year. There are over 4,000,000 volumes on the sixty miles of shelving.

New Facts For Scientists

Greenland Fish May Be Link In Chain Of Evolution

A new chapter in evolution is seen by New York scientists in the four-foot, fish-like fossil, fish found by Dr. Laughe Koch in Greenland prove to be as ancient as the reported to estimate.

From Copenhagen he reported finding thousands of stegocephali, creatures with frog-like heads and lizard-like bodies. He was quoted as estimating their origin in Devonian times, or about 300,000,000 years ago.

Stegocephali have been found all over the world, offering evidence of evolution slowly changing a fish into a land-crawling creature, but only one in all the thousands previously found had been traced back definitely as far as Devonian times.

This one is the famous "first creature that walked on dry land," and its footprint exists. This is a foot and toes impressed upon a Devonian rock about 300,000,000 years ago and found at Mauch Chunk, Pennsylvania.

Scientists have reason to suspect the relatives of this Pennsylvania stegocephali might supply one of the many missing links in the story of evolution. This is principally because the earlier known stegocephali were more like fish than the later ones. Hence the Greenland find of thousands of these breathing, walking fish is like opening a whole new book of facts, provided the "Devonian" estimate stands up.

Now is the time for the Canadian dairy farmers to step in and make money. This is the deduction to be drawn from the memorandum submitted to Hon. Robert Weir, Minister of Agriculture, by J. F. Singleton, Director dairy commission.

Importation Will Be Necessary

Now is the time for the Canadian dairy farmers to step in and make money. This is the deduction to be drawn from the memorandum submitted to Hon. Robert Weir, Minister of Agriculture, by J. F. Singleton, Director dairy commission.

Build Imitation Sea For Angora Residents

Turkish President Makes Sea Bathing and Sports Possible

Most of the inhabitants of Angora, the new Turkish capital in the centre of Anatolia, are government servants, who used to live and work for the sultans at the Sublime Porte in Istanbul. Transferred to the hot and arid summers of Anatolia, they sigh for the seas at Constantinople.

President Kemal Pasha has hit upon a device to give them "sea" bathing and aquatic sports far from any salt water. He has constructed an imitation Black Sea—a faithful model in all its contours—on his farm of Orman Tezlik, a few miles outside the capital, and he has thrown it open to the public for bathing.

It was specially built to provide water for the 15,000 trees which he planted.

It is divided into three parts. There is the "Sea of Azyz"—a miniature of that offshoot of the Black Sea—which has a depth of from three-quarters of a yard to a yard and a half and is reserved to non-swimmers. The centre of the basin, which is the Black Sea proper, has a depth of two and a half yards, and here good swimmers are allowed. On the shore along the imitation coast of Soviet Russia, a beach of fine sand has been laid where sun-bathing can be enjoyed and where the Turkish women display their beach pyjamas.

Parasol tents have been erected along the shores both for spectators and bathers.

The Latest Invention

Mail Carrier Demonstrates Wireless Telephone Without Any Tubes

What is believed to be the first wireless telephone communication without tubes in transmission and reception was accomplished recently when Walter Beams, proprietor of a roadside restaurant along the Lackawanna Trail, demonstrated his invention to a group of witnesses.

Beams talked over his home-made tubeless and wireless telephone for 10 minutes over a distance of more than 100 feet. A head-set and mouth-piece was set in one building and a similar apparatus in another some distance away. Beams' set was operated on a six-volt battery, and practically all the parts were made by the inventor, who has been experimenting for some time.

Beams, who was formerly a mail carrier at Doylestown, Pennsylvania, said that the time is near when wireless, tubeless telephone systems can be installed, with a central exchange system, for the same reason as at the present time. Development and establishment of this science will save an enormous operating cost, he believes.

Beams also declared that he could show science the cause of the fluctuation of the market for wheat as a result of extensive experiments which, he says, were successfully terminated on March 9, this year, leading to the wireless and tubeless telephone.

Monaco Faces Bankruptcy

Success Crowns Efforts Made To Save Antelope Herds In Their Native Habitat

Canada's success in bringing back the buffalo has been acclaimed by wild life conservationists in many parts of the world, but little has been said of her successful efforts in saving the prong-horned antelope in its native habitat in Western Canada. The march of settlement in the West made disastrous inroads on the numbers of these timid animals and when their condition was brought to the attention of the Dominion Government immediate action was taken through the Department of the Interior to establish reserves for their protection and propagation. In 1914 the first sanctuary to be established was that to be later known as "Wawaseky Park," an area of 54 square miles in southern Alberta about 75 miles east of Lethbridge. Early in 1915, an area, later to be known as "Mendham National Park," about 25 miles north of Medicine Hat, Alberta, was set aside for the protection of antelope in that district and since then the success of the Department's efforts has been most remarkable.

The main work in the conservation of the antelope is taking place at Mendham Park since the area of eight and a half square miles comprising the sanctuary is fenced and a definite record of the progress of the work can be kept. The herd of approximately 425 antelope in this park represents the results of an interesting experiment previous to 1915 efforts at raising antelope in captivity had been unsuccessful owing to the effects of the shock of capture. Consequently officers of the National Parks Branch of the Department of the Interior, in charge of the work, hit upon the scheme of corralling a herd of antelope on a suitable grazing area. A herd of forty-two animals were observed feeding north of Medicine Hat, and the work of fencing the animals in without disturbing them was successfully carried out. Since then they have thriven evidently under conditions of their captivity and these graceful native animals are rapidly being restored in numbers.

At Wawaseky National Park, as far as observations of those in charge of the park show, the antelope which frequent this unfenced reserve, are increasing. Comparisons of these animals are noticeably greater throughout the area than previous to the establishment of the park and their future in this part of the province appears assured.

Winter Care Of Ducks

Heated Pen Not Essential But Good Ventilation Necessary

In order to give ducks good ventilation, provide five square feet of floor space for each. For 50 birds this would require 250 square feet and a good size would be 10 feet wide by 25 feet long. Have a feed alley running along the full length of the house, wide enough to carry feed and litter, both of which might conveniently be stored in a loft overhead. This loft would help to keep the pen warm and also provide necessary ventilation. Each storey should be about seven feet high for convenience in working and caring for the ducks. A flat roof covered with tar and gravel would be cheap and otherwise satisfactory and more simple to construct than the pitch roof with gables. Ducks do not require much heat but houses should be made so to keep water and eggs from freezing. They do not require water to swim in, but need a great deal with their feed. Yards or runs also are advantageous. Have divisions in the house and runs so the birds can be separated according to age if desired. Build the house on the sunny side of a barn or the sheltered side of the orchard or woods.

Are Safely Kept

Units of weight and measures are kept buried in England and are dug up every tenth year. The standard yard measure, made in bronze, and the standard pound and kilogram weights, of platinum, are kept imbedded in the masonry of the Houses of Parliament.

Composed of nickel, steel and aluminum. Japanese scientists have perfected a new magnetic alloy said to have twice the strength of the most popular form of magnetic steel.

"You only married me for my money."

"That the opposite, dear. Because I had none."—Walter Jakob, Berlin.

W. N. U. 1961

Higher Wheat Price Needed

Would Do More Than Anything Else To Bring West Back

However, taking Western Canada as a whole this will not be a debt-paying year. Most farmers will be able to meet their current bills and their taxes and to provide for seed and feed. The more fortunate ones will also have enough to pay the current mortgage interest. The crop is big enough to make every few cents advance in price important. Westerners are not looking for higher prices, they are praying for them nevertheless. No single factor could do more to bring back the West than a rise in the price of wheat. Nothing else can do the job alone.—Financial Post.

Perfecting Pitless Prune

Small Shell-Like Substance Only Sign Of Stone

Squirreled grapefruit, "nun-kissed" oranges and now comes "pitless prunes." O. H. Jacobson, operator of a nursery four miles east of Mount Angel, Oregon, is perfecting the development of a pitless prune. The fruit is olive-shaped, about the size of a Peelite, has the color of an Italian prune, is grown on the Italian type of tree, but has a "foreign" flavor all its own. The only sign of a "pit" is a shell-like substance about as small as a dime. Fourteen hundred trees have been budded with buds from the one tree.

Cheap Motive Power

Purebred Jersey Bulls Do Work For Oregon Farmer

Herbert E. Sharp, 56, runs his farm near Stayton, Oregon, without tractor or horse. He depends on two purebred Jersey bulls for motive power. For more than two years all work on the Stayton 40-acre farm has been done by his pedigreed patriarchy of the herd. Prospect and Rosalie. Sharp even hitched them up to a two-wheeled cart and drives to town for supplies. The modern-day bull whacker declares they are great gasoline savers and even eat less than a horse and never have to be shod.

(By Ruth Rogers)

SMART AND LOVELY FOR FALL SCHOOL TERM IS THIS WINE-RED TWEED

What about a new woolen frock for early fall school wear? There's loads of style and chic about today's pattern. And it's so simple to make.

Lots of woolen materials will be lovely for it from the woolen fancies to the lightweight tweeds.

You could also make it of rayon novelties and wool crepe.

Quite a smart dainty effect is obtained by the pleated ruffing trim.

Style No. 682 is designed for sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards of 36-inch material with 2 yards of plating.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

ASSISTANT (to Beach Inspector): "What are we to do about that one down there, sir? He's wearing a bit of costume and then wait a bit before the next bit."—London Opinion, England.

Reducing Temperature

Offices Cooled As Well As Heated By Steam

A system for cooling business offices by steam has been tried with success in Detroit. Steam under high pressure is passed through a nozzle at high velocity where it acts as a pump to remove the air and vapor from a tank of water. This produces a vacuum, cools the water rapidly, and the water is then pumped through cooling coils to reduce the temperature in the rooms. Modern science has thus destroyed another illusion, that janitors only work in the winter months.

When To Cut Sunflowers

Best Time When About Fifty Per Cent In Bloom

"It is generally recommended to cut sunflowers when they are about 50 to 60 per cent in bloom," states E. S. Hopkins, Dominion Field Husbandman. "At this stage they contain more dry matter than at earlier stages and are more easily handled than at other stages. If the heads are allowed to mature until the seed is in the dough stage the stalks become too heavy and difficult to cut and handle in the field, and difficulty is also experienced in getting the larger heads to pass through the throat of the ensilage cutter."

Money In Pie Business

The pie business has been good in Chicago to George Kanopka, 72. He was peddling individual pies when Policeman John Frye asked him about his license. "I can't afford to waste money on licenses," he said. So the policeman searched him to see just how poor he was. In a pocket of his trousers there was \$7.516.

Neptune's satellite is supposed to be about as large as our moon and it moves around the planet in a little less than six days.

China has decided to participate in the Chicago exposition next year.

Churchill Could Have

Handled More Wheat

Shipping Agent Disappointed In Amount Of Tonnage Offered

With the successful clearing from Churchill of all boats in that vicinity, some 2,000,000 bushels of grain will have been exported in the first commercial season of the Hudson Bay route. Thomas, Harling, shipping agent, said at Montreal. Eight steamers were chartered this year to carry grain overseas from the northern port. "It would have been possible to handle a much greater quantity," Mr. Harling said, "and I am a little disappointed that more tonnage did not come out." The area about Prince Albert and Saskatchewan can provide approximately 45,000,000 bushels for shipment through Churchill annually, he said.

Amateur Miners Lucky

Succeeded In Finding Gold Where Experienced Prospectors Failed

As miners, H. O. Hapley, a sheepherder, and Harry Browner, ranch hand, were "greenhorns." On Gold Hill, two miles from Angeles Camp, California, two expert miners, over which the sportsman may travel in comfort, to the "going in" point. Areas previously inaccessible may also now be reached by airplane in a few hours' flight. Detraining or "going in" points are numerous throughout game areas and at those will be found reliable outfitters and qualified guides, who are prepared to look after the sportsman's every need and guidance while in the hunting territories. In several of the provinces it is compulsory for the hunter to be accompanied by a guide, but even in those provinces where it is not compulsory, it is often advisable to engage guides. These men, being familiar with the territory in which they operate, are able to add greatly to the enjoyment and success of the trip.

Wild Fowl Abundant

The numerous lakes and ponds of northern Canada are the breeding places of the main waterfowl population of the American continent consequently ducks, geese and other waterfowl are plentiful, in normal years. The ruffed grouse or partridge is the most important upland bird game is common to every province, while woodcock, prairie chicken, Hungarian partridge and ptarmigan provide good sport, in certain districts.

Conservation of Game

In Canada a practical form of conservation is found in the setting aside of tracts of public lands, as game reserves, and in the rigid protection of game in its extensive national and provincial parks. In these areas the game multiplies rapidly, under protection, and spreads over into the surrounding country. This favourable condition, coupled with sound protective legislation regulating the open

Plymouth Rocks Sent

To Arctic Outpost

Alkavik Residents Look Forward To Having Fresh Eggs

No longer will residents at Alkavik, one of the last outposts in the western Arctic, sigh for nice fresh eggs. Alkavik, which is more than 1,500 miles north of Edmonton and up in the Arctic circle, has had its population increased by about thirty and two roosters, and the residents will have fresh eggs—that is if the hens continue to lay.

G. M. Cornie, provincial poultry commissioner, shipped the feathered flock to P. Stromberg, described as a "poultry factor of Alkavik." Alkavik has no chickens at the present time, it is stated.

The chickens travelled by train to McMurray and then by boat to Alkavik. They are pure-bred to-day bred Plymouth Rocks and are five-and-a-half-months old pullets.

The hens are in good condition to face the long winter darkness of the north. On the trip north they were fed a special laying mash and whole grain to keep them laying until they arrived.

In announcing the trip by the chickens, the poultry branch recalled that civilization is going north. In this connection it might be recalled that a team of horses went as far north as Arctic Red River by boat last year to do various pieces of work around different posts. At Arctic Red River children who had never seen horses gaped open-mouthed at them and called them "big dogs."

Mild Winter Predicted

Cree Indians Say There Will Be Lots Of Snow

Western Canada can prepare for a mild winter with plenty of snow. A late fall and an early spring will cut down the winter far below its usual level. That's the decision of the official weather men of the Cree Indians at The Pas, Man.

Year after year the Indians have been calling the turn on the weather and always correctly. The uncanny skill of the aborigines in forecasting the weather for the coming season is highly respected in the north country.

To gain their information they closely observe the actions of muskrats and other animals at this time of the year.

Paris Fighting Aids

Paris is fighting its third invasion of pests. First a swarm of mosquitoes visited the French capital. Then followed a plague of blue flies. This time it is ants. The heaving pest has marauded all its force, armed with sprays, disinfectants and other paraphernalia, and is directing an onslaught on the invaders. A number of bakeries near the house and other buildings in other parts of the city have been overrun by the busy insects.

Wealth From The Land

Increase In Revenue From Alberta's Farm Products Is Expected

Several million dollars increase in revenue from Alberta farm products is expected in 1932, compared with the 1931 figures, according to financial men.

The 1932 revenue is expected to exceed \$152,000,000 compared with \$147,000,000 in 1931.

Alberta's farm animal production for 1932 will total \$18,000,000 it is estimated. The dairy industry is estimated to realize \$12,000,000, while poultry and poultry products may reach \$8,000,000. Miscellaneous commodities, it is believed, will return \$300,000.

These figures, added to \$116,000,000 set as the value of this year's field crops, result in the estimated \$152,000,000 total.

This does not allow for probable increases in market prices. If any improvement in prices occurs the total will be much larger, it is pointed out.

Imagine The Rest

The somewhat shortsighted golfer had reached a stage of the game when desperate measures were necessary. Taking a tall tee he smote savagely, and instantly searched the heavens for the ball. "Where did that one go to, caddy?" he asked in accents of great hope. "A couple of feet behind yer, sir," answered the boy gloomily.

Claims New Link

Laure Koch, veteran Arctic explorer, related an incident from Greenland with the claim that he had found evidence of one of the missing links in the chain of evolution—a four-legged fish that walked ashore.

Self-made man

"They say that it takes three generations to make a gentleman."

has just resigned as task master of the Landreth-Alkavik, Alta. church choir.

Exports Of Home Grown Wool Have Developed Rapidly During The Past Few Years

For Seals Create Have

Injure Salmon and B.C. Fishermen Lose Heavily

Fur seals are being blamed by fishermen for the widespread destruction among herds of salmon off the west coast of Vancouver Island and further north. It is believed that when the seals were on their annual migration northward from the California coast to the cool waters of the Pribilof Islands off Alaska.

Fishermen report that they have caught hundreds of salmon scarred and battered by seals. The loss is estimated at thousands of dollars, because a vast number of the injured and slaughtered fish would naturally reach the fishermen's lines or traps.

Halibut fishermen are also protesting against the fur seals, as they claim the seals tear halibut from the hooks while the fish are being hauled in by hand lines.

The fur seals are protected under international treaty from slaughter by anyone but Indians using spears and navigating in hand-driven canoes. This means that only a negligible number of seals are killed. The fishermen seek abrogation of the treaty so as to protect fish, rather than seals.

Colony Prepared For

Doukhobor Prisoners

B.C. Nude Parades Taken In Groups

Doukhobors arrested for nude parading and locked up in the provincial penitentiary at New Westminster are being transferred in small groups to the newly established penal settlement on Piers Island, where they will serve the remainder of their three-year term of imprisonment.

Preparation of the penal colony has been carried out under the British Columbia government under a cloak of secrecy, and special precautions have been made to prevent "spying." Signs have been erected along the shore warning that no boats are to be allowed within 300 feet of the island on penalty of arrest. Communication between Vancouver Island and Piers Island is being maintained by the government tender "Knockabout," which carries workmen to and from the operations.

Piers Island, thickly wooded, with considerable outcroppings of native rock. Most of the clearing has been made at the north end, where Col. James Harvey, lessee of the island, built several houses some years ago.

Wealth From The Land

Increase In Revenue From Alberta's Farm Products Is Expected

Several million dollars increase in revenue from Alberta farm products is expected in 1932, compared with the 1931 figures, according to financial men.

The 1932 revenue is expected to exceed \$152,000,000 compared with \$147,000,000 in 1931.

Alberta's farm animal production for 1932 will total \$18,000,000 it is estimated. The dairy industry is estimated to realize \$12,000,000, while poultry and poultry products may reach \$8,000,000. Miscellaneous commodities, it is believed, will return \$300,000.

These figures, added to \$116,000,000 set as the value of this year's field crops, result in the estimated \$152,000,000 total.

This does not allow for probable increases in market prices. If any improvement in prices occurs the total will be much larger, it is pointed out.

Best Hours For Sleep

Are Between Seven and Eleven—Thirty Says Professor

After study covering several years, Professor Stockmann, director of the municipal lyceum at Duisburg, Germany, has declared that the hours between 7 and 11:30 p.m. are not only "the healthiest and most profitable" for sleep, but they are also sufficient to maintain the body at its maximum efficiency during the day. Professor Stockmann's sleep researches included persons of both sexes and of all ages.

An Unusual Accident

A small pebble flung tip against the brass "atlet" of a propeller caused an air liner bound from Croydon, England, to Paris, recently, with 24 passengers, to return immediately to Croydon and transfer its passengers to another machine.

The Bulgarian language is spoken

by approximately 5,650,000 people.

Where does this path go to?

HUNTING IN CANADA

WIDE VARIETY OF BIG AND SMALL GAME

HUNTING GROUNDS EASILY REACHED

SEASONS OF GENEROUS LENGTH

During recent years there has been an exceptional increase in the number of people of this country who enjoy the sport of hunting and many thousands go afield yearly, with rifle or shotgun. No other section of the world can offer to the sportsman the same favourable conditions as prevail in Canada with its immense areas of virgin territory within rapid and comfortable means of access.

Vast Hunting Areas

This country possesses over 1,000,000 square miles of forest, which shelters game animals ranging from the timid rabbit to the huge and dangerous grizzly bear. Moose, caribou, elk, deer, bighorn sheep, mountain goat, timber wolf and bear are plentiful and may be hunted during open seasons of generous length.

Wild Fowl Abundant

The numerous lakes and ponds of northern Canada are the breeding places of the main waterfowl population of the American continent consequently ducks, geese and other waterfowl are plentiful, in normal years. The ruffed grouse or partridge is the most important upland bird game is common to every province, while woodcock, prairie chicken, Hungarian partridge and ptarmigan provide good sport, in certain districts.

Conservation of Game

In Canada a practical form of conservation is found in the setting aside of tracts of public lands, as game reserves, and in the rigid protection of game in its extensive national and provincial parks. In these areas the game multiplies rapidly, under protection, and spreads over into the surrounding country. This favourable condition, coupled with sound protective legislation regulating the open

Accessability is an outstanding feature

of much of Canada's hunting territory. The country is well served by roads, railways and steamboat lines, over which the sportsman may travel in comfort, to the "going in" point. Areas previously inaccessible may also now be reached by airplane in a few hours' flight. Detraining or "going in" points are numerous throughout game areas and at those will be found reliable outfitters and qualified guides, who are prepared to look after the sportsman's every need and guidance while in the hunting territories. In several of the provinces it is compulsory for the hunter to be accompanied by a guide, but even in those provinces where it is not compulsory, it is often advisable to engage guides. These men, being familiar with the territory in which they operate, are able to add greatly to the enjoyment and success of the trip.

Game Laws Of The Provinces

The game laws of the different provinces are drafted by the provincial governments with a view to meeting local conditions; consequently there is no uniform game law for the Dominion as a whole. As these game laws are subject to revision from year to year, persons contemplating a hunting trip are advised to obtain copies of the current game laws and regulations of the province in which they intend to hunt.

The National Development Bureau

of the Department of the Interior at Ottawa will gladly supply information on hunting in Canada, by either complying with requests, or referring same to other sources from which the particulars desired may be obtained.

The annual canvass for funds to carry on the work of St. Andrew's Church will be on Sunday, Oct.

MARRIED

Baldwin—Chalmers
St. Cyprian's Church was the scene of a quiet marriage at 2:30 p.m. on Wednesday, October 5th, when Mar- garet Jane, daughter of Mr. and Mrs. William Chalmers, became the bride of Merle Morrison, son of Mr. and Mrs. Charles E. Baldwin, also of Edmonton.

The Parish register was signed by Mary J. Taylor and L. R. Wardell.

The happy pair, who have the best wishes of a host of friends will make their residence in the capital city of the Province, at 10568-92nd Street.

NEW LIBRARY BOOKS

The library has added to offer this month's many valuable additions to the shelves. Over 35 books, practi- cally all late 1931-32 copyrights have been transferred to the open shelves, along with some new purchases, which include the latest by Arnold Bennett and Jas. Lincoln and also a popular non-fiction, "Queen Vic- toria," by Lytton Strachey. A num- ber of requested books are expected soon.

For the pay shelves an order has been placed for the new fall fiction, as it is published. This week the following books have been added. All the latest by the authors: The Fountain, Chas. Morgan; The Fortunes, Hugh Walpole; Song, Pearl Buck; Ma Cinderella, Harold Bell Wright; And Love Goes In, Vicke Baum; Captive of Sahara, E. M. Hull; A Modern Hero, L. Bromfield; Loads of Love, Anne Parrish; Smoke, M. A. Dornier; Mary's Neck, Booth Tarkington; Shortest Night, G. B. Stern; The Loving Spirit, DuMaurier.

CARD OF THANKS

Mrs. A. W. Sharp and family wish to sincerely thank all those friends who rendered assistance and extended sympathy in their recent and bereavement. They wish to espe- cially thank all who sent floral tokens.

The Funeral of G. P. Johnston.

George P. Johnston, a valued employee of the Calgary Power Co., at Lacombe, met instant death on Tuesday, October 4, while inspecting a transformer at Alix. He was born at Kempville, Ont., in 1881, and came to Edmonton in 1909 where he resided until April 1, 1932 when he was transferred to Lacombe. He was a man of sterling qualities, with a wide circle of friends, and one who loved his home dearly.

He leaves to mourn his loss, his wife; one daughter, Isabel; two sons, Thomas Mansfield and George W.; three sisters and one brother in Ontario.

The funeral service was held from Lacombe United Church, on Thursday, Oct. 6th, interment being made in the Lacombe cemetery. The service was conducted by Rev. R. B. Layton, of Lacombe and Rev. Dr. A. C. Farrell, of Edmonton.

The Pallbearers were: Mr. J. H. MacDonald, Mr. C. F. Danner, Mr. Robt. Rhind, Mr. A. E. Ross, Mr. R. Williams, Mr. J. Fraser.

Floral Tributes were received from: Wife and Family; Brother and Sisters; Edith and Will; Ross and Kathleen; Mr. and Mrs. D. G. Horn and Family; Mr. and Mrs. S. N. Carleton; Uncle George, Aunt Julia and Cousin Ada; Mrs. G. H. Thompson; Mr. H. B. Shaw; Mr. J. H. MacDonald; Mr. and Mrs. H. R. Randle; Mr. and Mrs. Williams and Family; Mr. and Mrs. Elliott, and Family; Mr. C. F. Danner and Robt. Rhind; Mr. and Mrs. Carson Reid; Mr. and Mrs. A. W. Cairns and Family; Ralph and Mrs. McRobison; Mr. and Mrs. Stackhouse and Gertrude; Mr. and Mrs. Walter Vassar; Mr. and Mrs. Royner; Mr. and Mrs. J. D. Foster; Mr. and Mrs. Hollings and Family; Effie, Pierson and Florence McRobison; Mr. and Mrs. Chas. Simpson and boys at the store; Elsie R. Whiteley; Helen Ramsey; Arthur Blane; Calgary Power Co., Ltd.; Staff of Calgary Power Co., Ltd., Edmonton; "K.V.A." Club of the Calgary Power Co., Ltd.; Field Men, North Division of the Calgary Power Co., Ltd.; Women's Musical Club Chorus, Edmonton; Wesley Ladies' Association, Edmonton; Lacombe United Church Choir; Woman's Conservative Association, Edmonton; Wesley Young People's and Tennis Club, Edmonton; Wesley United Church Choir, Edmonton.

CARD OF THANKS
Mrs. George P. Johnston and family wish to thank their many friends for kindness extended to them in their recent bereavement, also for the many beautiful floral tributes.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Ronald Ross, noted authority on tropical diseases, is dead, aged 76. The adventurous whaling industry may be revived to prosperity on the British Columbia coast as a result of a rise in oil prices of 30 per cent.

Rolling an automobile tire before him, Emory Cross took off from Westland, Ont., on a seven-year jaunt around the world.

The city of Tarsus, home of Saint Paul, was swept by fire. The flames destroyed 144 houses with the loss of \$100,000.

The admiralty ordered the keel to be laid on October 1 for Germany's third "pocket battleship," to be known for the present as "armored ship C."

For lack of funds Berlin streets have for years been so badly neglected that a number of important thoroughfares have now been closed for heavy trucks.

Mrs. W. Thrift, of Sidcup, England, whose husband was reported missing during the World War, has just been notified that he was killed near Cambrai.

A number of Alberta acres face a potato shortage because of two months of hot weather without rain this summer, according to Calgary merchants.

Sweden is motorized. Of every 100 vehicles one meets on its roads, only 11 are horse-drawn, the annual Swedish Road Congress at Gothenburg, Sweden, was told.

Sir Henry Simson, the physician who was in attendance at the birth of Princess Elizabeth and Princess Margaret Rose, children of the Duke of York, died suddenly of a heart attack. He was 60 years old.

Big Fur Shipment

Furs To Value Of Half A Million Arrive From H.B. Region

A ton and a half of fur from the northern barren lands, principally from along the west coast of Hudson Bay, passed through The Pas, Man., recently, on the way to the markets of the world. The shipment is valued at roughly half a million dollars. The fur-fox, mink, marten—was caught during the past year by Eskimo, Indians, and white trappers in the sub-Arctic wastes. Only the richest and most choice fur was brought down.

From Chesterfield Inlet and other points it was flown to Churchill by the three Junkers' planes of the Canadian Airways, and then loaded on to the famous muskrat train that plies between the northern port and The Pas, Manitoba.

The fur will go by Canadian National Railways to the Revillon Freres Company in Canada and the Hudson Bay Company in London, England.

New Railroad Crossing

Gate Is Automatic

Invented By Germans It Closes When Engines Approaches

H. F. C. Musmann, 51, native of Germany, recently received patent papers on his newly invented railroad grade crossing automatic gate which he believes will eliminate many accidents—and incidentally enable him to spend the rest of his life in wealth.

Musmann's new gate is operated by a system of arms and levers. No electricity is used. Arms are located 100 yards on each side of a crossing which strike bumpers on an approaching locomotive and close the gate.

A: "Do you know your wife is telling everyone you can't keep her in clothes?"

B: "That's nothing. I bought her a home and I can't keep her in that either."

Fields of strawberries in West Kent, England, have been thrown open to the public.

A dromedary bears the same relation to a camel as a race horse does to a draft horse.

"If that is art, I am a fool."
"Yes, it is art and of the best kind."
—Buen Humor, Madrid.

New Fabric Is Creaseless

And Like Many Inventions It Has Unexpected Virtues

A favorite necessity will not have to be thrown away so soon if it is made from a new fabric which withstands tugging as readily as wool. All textiles wrinkle to some extent, linen probably being the most crushable and wool the least. Cotton and artificial silk have been put through experiments for years in the attempt to make them comparatively creaseless.

A report from a textile firm of Manchester, England, announces that at last science has solved the problem, and so cheaply that fabrics are now being made and sold. Neckties, being a stiff test for wrinkle by their use and nature, were the first articles of commerce in the new material.

Like so many inventions made with a purpose, this one is discovered to carry additional and unexpected virtues. Intended merely to make the cloth as elastic as wool, it also strengthens the fabric. This should make it especially valuable to manufacturers of artificial silks, which have been strong enough while dry but greatly weakened by water. The actual process is the last one in manufacture, following bleaching, dyeing and printing. It consists of "putting" a synthetic condensation product inside the filaments of cotton or silk.—New York Times.

Believe It Or Not

Earthworms In Australia Attain Length Of Ten Feet

An earthworm, native to southeastern Australia, attains extreme lengths of ten or twelve feet and diameters of three-fourths of an inch, although the average specimen is only three or four feet long. It belongs to the same species as our common earthworm. The progress of these giant worms through the soil is attended by gurgling and sucking sounds clearly audible to persons walking on the surface. Their eggs resemble large ovals. Related species which attain a length of several feet are found in parts of South America, Java and other sections of the world.

(By Ruth Rogers)

740

A WRAP-AROUND MODEL FOR YOU IF YOU'RE A WEE BIT HEAVY

Still another smart and flattering style for matrons. And it's cut on the wrap-over lines so becoming and liked. There's a slenderizing bias line at the front and at the back that reduces the hip bulk. The shawl collar is very becoming. And don't you like the shaped sleeve cut?

So many charming materials can be used for this slim-line model. The original was rhum-brown wool crepe with white pique trim. It's perfectly stunning in black crepe satin with a canton-faille back. Use the dull back surface for the collar and cuffs.

Style No. 740 is designed in sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 38 requires 3 1/2 yards of 39-inch material with 3/4 yard of 39-inch contrasting. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Luxury In Air Travel

Prince Of Wales Pleased With Trip To Corfu

The flying visit made recently by the Prince of Wales and his brother, Prince George, to the Fleet at Corfu, illustrated the progress made in British flying boats operating over the Mediterranean section of the air mail route to India. They travelled in Satus, a four-motored biplane, described as one of the largest and most luxurious marine passenger carriers in the world.

Satus completed one Friday morning her scheduled air journey from Alexandria to Brindisi with passengers, mails and freight from Africa, and was immediately flown up the Italian coast to await at Venice the arrival of the Prince. The next morning at 9:30 the Prince, who was accompanied by an equestrian and two members of their personal staff, went aboard. A coastal fog, thick in places, hung over the water. The flying boat took off easily, and shot up above the fog. The Prince, who was accompanied by an equestrian and two members of their personal staff, went aboard. A coastal fog, thick in places, hung over the water. The flying boat took off easily, and shot up above the fog. The Prince, who was accompanied by an equestrian and two members of their personal staff, went aboard. A coastal fog, thick in places, hung over the water. The flying boat took off easily, and shot up above the fog.

During the journey the Prince of Wales himself an enthusiastic private airplane owner and an able pilot, though he has never qualified for his "license," went forward into the control cabin and spent time there with the two pilots. He examined every detail of the plotting, navigational and radio equipment with the greatest interest, "felt" the controls and asked many questions. Before disembarking at Corfu he expressed much pleasure with the flight, commenting particularly on the comfort and quietness of the big aircraft. He said that the journey had been accomplished at a speed and with an absence of fatigue which would have been impossible by any other form of travel. The Prince is becoming a minded.—Toronto Mail and Empire.

Retreat For Retired Mariners

"Snug Harbor" Was Started On Staten Island In 1831

It was a great day for yarning when "Snug Harbor" celebrated its 101st birthday anniversary. Now a retreat for some 800 retired mariners, Snug Harbor is a valuable estate on Staten Island, New York, within ferry ride of the towers of Manhattan. They started building Snug Harbor in 1831, when Captain Richard Randall bequeathed 20 acres of farmland, now in the heart of the city of New York, the income from which was to be spent on the sailors' home. Captain Randall probably never dreamed that the yield from this property, about \$4,000 at the outset, would amount to \$1,000,000 annually, as it has done in recent years.

So Snug Harbor is well equipped. On its 120 acres 200 employees are maintained. There are 30 buildings on the beautiful grounds, including a church, recreation hall, theatre, music hall and dormitories. Snug Harbor has its own farm, boasting 60 cows and 200 pigs. But with all these diversions it's easily understood the old salts who have come to spend their declining years within sound of the world traffic entering New York harbor find their chief enjoyment in tales of the seven seas they have known.

Snug Harbor in fact has become a treasure trove for fiction writers who can obtain the material for 1,000 plots at the expense of a ferry and street car ride and a few hours with a friendly old sea-dog.

Selecting Christmas Goods

Buyers Choose What They Hope Will Be Popular

You may think Christmas is a long way off, but a lot of people have been getting ready for it ever since the last Christmas holidays were over. The National Art Ware show in New York attracted buyers from the nation's gift shops, selecting the class of goods they hope and believe the people will buy for Christmas presents in particular.

And this year, apparently, the vogue is going to be for articles fashioned of "machine age" materials. Manufacturers in search of economy have adopted so many new materials that it's just as if the trays, lamps, cigarette boxes and other bric-a-brac had just been invented.

Picture frames, vases, coasters and the like are made of glittering composition; chromium is used extensively to plate copper vessels—a table set with this finish is dazzling in sheen—cellulose materials make their appearance in dainties and table covers which can be used indefinitely and cleaned easily, while many wooden articles are being given a metal finish, reversing the now commonplace fashion of having metal articles, notably furniture, that look like wood.

A German scientist, H. von Bohndorff maintains he has witnessed metallic changes of various metals into others when placed under the influence of radium.

CANADIAN DELEGATES GO TO GENEVA

Hon. C. H. Cahoon, Secretary of State for Canada (right) has sailed for Geneva to head the Canadian delegation to the meetings of the assembly of the League of Nations convening on September 26. He is accompanied by Madame Charles Fremont (left), who is one of the three delegates representing this Dominion.

A Mark Of Distinction

Ability To Keep Ears Open And Mouth Shut

A man seeking a job, advertised in this way in a New York newspaper: "I have just enough brains to keep my mouth shut, my ears open and present a good executive appearance. Do you need a front for your business?"

We suspect the gentleman is not being quite frank with his public. Probably he is a very shrewd, capable person who thinks an air of humility, of self-deprecation, an original line of approach, may achieve the results likely to be denied a more orthodox recital of his good qualities. The fact is, of course, that ability to keep the mouth shut and the ears open is a mark of considerable distinction and a virtue commonly denied to a great many persons. The "front" of "good executive appearance" and nothing to back it up is much more apt to keep his mouth open and his ears shut. If he knows enough to reverse the process he is more than just a front.—Ottawa Journal.

Treasures Of Harewood House

Henry Lascelles, Original Owner, Was West Indian Millionaire

Harewood House, near Leeds, England, where the King and Queen spent a week-end in August, with the Princess Royal and Lord Harewood, was built about 150 years ago at a cost of £120,000. It took 12 years to erect. The State apartments command a magnificent view of beautiful Wharfedale, and contain some wonderful ceilings, plaques and paintings, as well as some of the finest specimens of Chippendale furniture in the world. Henry Lascelles, the son of the Harewood family, was a West Indian millionaire, and in Harewood House there are nearly 80 massive mahogany doors made from wood grown on the West Indian estates.

Would Choose Man Employer

Men make more satisfactory employers than women, according to Mrs. Julie M. Eberhardt, who is one of the few women members of the New York Credit Men's Association. But women surpass as employees, she says. Women are quicker to grasp ideas and easier to teach than men, she states. Their sense of loyalty makes them valuable, too.

It is so much easier to succeed after the others have quit.

Recipes For This Week

(By Betty Barclay)

ORANGE AMBROSIA DESSERT

(Serves 4-6)

This is a modern version, adapted to salad serving, of the ambrosia, which was Grandmother's favorite company dessert. Ambrosia, by the way, was the food served to the Greeks in their feasts on Mount Olympus. While this ambrosia and delectable combination of orange cocoanut will not confer the immortality given by the ambrosias of the gods, it is a dessert par excellence for better health.

6 oranges.
1/2 cup strained honey.
1 can cocoanut.
Peel oranges, removing skin down to juicy pulp. Cut in slices and cut slices in half. Dip each piece of orange in honey which is placed in a shallow dish, then in cocoanut. Arrange on crisp lettuce leaves. Serve with whipped cream to which a little mayonnaise has been added.

COOKED SALAD DRESSING

1/2 cup evaporated milk.
1/2 cup water.
1 teaspoon dry mustard.
1/2 teaspoon salt.
1 tablespoon granulated sugar.
2 tablespoons flour.
Dash of cayenne.
2 egg yolks.
1/2 tablespoons butter.
1/2 cup vinegar.
Blend evaporated milk with water and bring to scalding point in a double boiler. Thoroughly mix dry ingredients. Add slightly beaten egg yolks gradually and blend carefully. Pour hot milk slowly over egg mixture, stirring constantly. Return to double boiler. Add butter and cook until mixture thickens, stirring constantly. Heat vinegar, and add slowly. Blend thoroughly. Strain and cool. Makes 1 1/2 cups.

Epitaph Was Fitting

Tombstone Dealer (after several futile suggestions): "How would just a simple 'Gone Home' do for an inscription?"

The Widow: "I guess that will be all right. It was always the last place he ever thought of going."

Rice was brought to this country by a sea captain, returning from a voyage to Madagascar, in 1694.

+ Do You Know? +

THAT in Vancouver, British Columbia, the Hindu residents have established the Sikh Temple shown above where they carry on their religious rites under their own priests and leaders? As far as is known it is the only Sikh Temple in North America. Vancouver has a large Oriental and East Indian population.

Ceremony Postponed On Account Of Crowds

Final Stone Of Canadian Memorial At Vimy Not Laid

Hanging from the end of a great crane a nine-ton stone is poised over the summit of Canada's memorial at Vimy Ridge while hordes of neighboring towns and other notables are wondering why the ceremony of completion was interrupted.

At the last moment, Brig-Gen. Henry T. Hughes, after conferring with the builders, decided the stone should not be laid. Apologies were tendered to the French guests, who accepted them with graceful gestures and puzzled glances at "the last stone" still hanging far above them.

It was explained afterwards an employee of the Canadian authorities had climbed to the top of the memorial's completion with a small sack, causing a party of eminent visitors to attend. Brig-Gen. Hughes, whose home is in Victoria, B.C., directed the construction work and intended the ceremony of completion to be private.

Actual completion of the memorial is not expected until the latter part of 1934, as sculptured figures of heroic size are yet to be carved on the higher levels. The topmost figure will be 90 feet above the main platform. One figure on the lower level, representing the spirit of Canada, is already finished. Towering 135 feet above the Ridge and containing 4,000 tons of flawless stone, the structure commemorates Canadian valor at Vimy. It has been under construction since 1925.

British Speed King Married

Kaye Don Disclosed Fact Before Selling For Home

Kaye Don, the 40-year-old dapper British king of speed, disclosed the fact that he was a bridegroom as he sailed for home without his bride—21-year-old Elizabeth, daughter of the wealthy and socially prominent Mr. and Mrs. Leonard J. Martin, of Greenwich, Conn.

She had some "business affairs" to wind up, he explained, but would sail to join him in England, and then they will go to Italy for a honeymoon.

Don said the ceremony was performed in Greenwich, but would give no other details.

He and his bride first met in New York a year ago, when he first made his unsuccessful attempt to take the Harnsworth speed-boat trophy from Gar Wood.

Later Miss Martin went to school in Germany and they continued their courtship in Europe. Don said the wedding was all arranged when he arrived for the race this year.

Veteran Doctor Honored

Kansas People Pay Tribute To Traditions He Represented

When nearly one thousand persons assembled at Mulvane, Kansas, recently to honor the veteran physician who had ushered them into the world, they paid tribute not only to an individual but also to the traditions he represented. The old-fashioned country physician was one of the heroes of his profession. Scientific names now dignify the shrewd psychology he administered along with his pills and powders. Under conditions that would be considered impossible today, he performed many feats of surgery. No mud was too deep and no blizzard was too blinding to keep him from answering duty to duty. The midnight beat of hoofs said tribute not only to an individual but also to the traditions he represented.

The old-time country doctor is passing. As with the circuit rider and the colporteur, his type will eventually become extinct. But the recent assemblage in Kansas shows that modern medicine can well afford to honor the traditions of courage and duty that thousands of country doctors left behind them.—New York Evening Post.

Education Investment

Money Spent In This Way Is Never Wasted

The nation should spend not less money, but more, on education. An elementary school child costs the public \$65 a year, a secondary school about \$100. Who so foolish as to regard these moderate sums as excessive, or too burdensome for the nation to carry? Every penny spent on education is an investment which brings a hundredfold return. There is no asset comparable to a generation sound in mind, healthy in body, and adequately equipped to fight the battles of life.—London Daily Herald.

Many Veterans Employed

England has completed arrangements for the retention permanently in the government employ of more than 15,000 ex-service clerks, who had been given temporary employment. They will be engaged on a pensionable basis. In addition more than 2,000 temporary women clerks and stenographers are to be given pensionable employment.

A small strand of pineapple fibre tested against an equal quantity of flax sustains 90 pounds more weight.

"Few men wake up and find themselves 'observed' by a writer. Heavyweight boxers sometimes do."

DEFINITE HELP FOR DWELLERS IN APARTMENTS

Odorous fatty found to cook fish, cauliflower and cabbage

CANAPAR IS A PRODUCT OF HAMILTON FIRM

Lives there a woman, in apartment, duplex or home, who has not at some time or other reluctantly forgone fish, cabbage, and cauliflower because of the odors they give off when being cooked? Or who has not suffered from other people close by who cooked these foods regardless? Canapar entirely does away with this annoyance. More than that, it actually improves flavor and food value. Cooking in Canapar parallels the famous French method of ampering and confining food and its flavors to the closed casserole. Canapar comes in a handy size, in a handy size package. When boiling vegetables you simply wet the sheet of Canapar and make a bag similar to a pudding bag. If you are steaming them you line your steamer with Canapar, arrange food and season, and fold back corners of the Canapar to prevent steam from dripping back.

Baked or steamed fish is particularly delicious done this way. No fatty odor in the kitchen, no gummy kettle to clean. When roasting meats, line the pan with Canapar. It prevents the fats and juices from burning, and eliminates scorching of the pan afterwards.

Canapar saves fuel. You can cook three vegetables simultaneously in the same casserole with it, without the burning of flavors. And it is very economical. Just rinse the sheet after using it, hang it on the towel rack to dry. Use it over and over again.

Lots of women use Canapar for a dish cloth—it is so silky and satisfactory and does not spread dirt. This is a particularly good use if you happen to pierce the sheet of Canapar while testing the food, or during the cooking of it. Canapar is made by the makers of PARA-SANI the famous heavy wax paper in the Green box.

Special Offer

Most grocers, druggists and department stores sell Canapar. If you don't see it, send the coupon direct to Hamilton, Ltd., a new and unique book entitled "Lifetakers" containing one hundred recipes as a bonus for your trouble.

Applied Paper Products, Ltd., Hamilton, Ontario.

Enclosed 25c for which please send me one full-size package of CANAPAR Cookery Parchment and your 100 recipes for "Left-overs."

Altitude Records

Two British Pilots Make Claims To New High Records

British pilots, flying at opposite ends of the Empire, have advanced claims to two new aviation altitude records.

Captain Cyril Unwins claimed a new record for land planes, with a flight to 45,000 feet at Bristol. The official record is 43,154.9 feet, held by Lieutenant Apollo Coucke, United States Navy.

At Port Darwin, Australia, an amphibian attached to the British navy's ship, "Albatross," was reported as claiming a new altitude record for that type of ship, with a flight to 23,000 feet.

It was also claimed that a balloon released from the "Albatross" (under passengers) reached a height of 70,000 feet, or more than 13 miles. This was set up as a record. There are no official records for passenger balloons. Professor Augustus Piccard rose nearly 11 miles over Italy in his latest stratospheric ascension.

Gift For Schenectady

Historical Society

Office Chair Was Once Owned By Thomas Edison

A large old-fashioned chair owned by Thomas A. Edison, in the early days of the Edison General Electric Company, has been presented to the County Historical Society by the General Electric Company. It has witnessed in a sense the whole growth of the electrical industry in Schenectady. Amos Underwood, production manager of the turbine department at the Schenectady works, fell heir to it on the retirement of Langdon Gibson, former production manager of the Schenectady works. Gibson obtained the chair early in his career with the company and carried it with him from office to office.

The courage of the Turks is explained by the fact that a man with several wives is more willing to face death than if he had only one.

Thanatos was the Greek god of death, called by the Romans Mors.

"That is my own portrait, painted by myself."

"But how could you paint it with one hand on your stick and a pipe in the other hand?"—Lustige Bismarck, Berlin.

A. M. CAMPBELL'S

Another Great Fight Program

Another big boxing tournament looms on the horizon, and from the list of boxers, this tournament should be equal to, if not better than the one held last month. In the last fight, three-round preliminaries were featured, but this time the preliminaries will all go for six rounds. In this fight, the main bout, which is between Lefty Boeko and Athabasca Kid, will be 10 rounds. The other fighters listed are: Schumaker, of Athabasca against Heim of Stettler; Whitesides of Stettler against Frank Walcut, of Winnipeg; Scotty McPherson of Innisfail against Lavin, of Lacombe; Wells, of Red Deer against McKinley, of Three Hills; Young Collier, Vancouver against Jo. Parker, (colored), of Denver. Most of the above fighters weigh over 100 lbs. and are in the light-heavyweight class, so there will be lots of good fighting.

With regard to the list of fights on the card, there have been many false reports. It was rumored last week that Ernie Pocock (ex-Australian light-heavyweight champion) would enter the ring against Kid Moscow, but that statement has been contradicted. In an interview with Ernie, he stated that it was owing to a disagreement over rules that he refused to be entered in the fight, as he held out for Australian Rules. He is booked to fight in Madison Square Gardens the night of the fight. One Round Hall (Daddy), was also supposed to be booked to fight against Casey Jones, but owing to lack of time to train, refused to enter the ring. Bob Parke, rumor has it is booked for one of the bouts, but on going to press, we have not confirmed this report. Do not listen to rumors, but look for the bills.

The judges will be Inspector McLean and Joe LaFrance of Red Deer, and these two sportsmen will be on deck to see that everything is run o.k. The Referee, is Walter Wells, of Red Deer, who knows the fighting game from A to Z. He has had years of experience in refereeing prize fights and his decisions will be fair and impartial. C. F. Dameron, of Bentley will be official announcer, and fans who heard him announcing last fight know they do not need to be up close to hear him.

Cameron Studio Honored. During the summer the Contest put on by the Master Photo Finishers of America and Canada many prizes for the best snapshots were awarded. One of the many Cameron Studio customers, Mrs. Eata Stewart, of Rimbey was the winner and received an Honorable Mention Prize in the National Contest. Very few finishing establishments in the West have had this honor.

26 LIVES LOST IN ALBERTA BY FIRE!

This was the Toll of Human Lives in 1931
Added to this was:—

Property loss totalling more than \$3,000,000.00
Forest Fire loss totalling more than \$ 800,000.00

Help Us Fight This Great Public Enemy

SOME OF THE CAUSES

A neglected camp fire.
A settler's clearing fire.
A carelessly handled burning straw stack.
A lighted match heedlessly flung.
An improper use of gasoline and kerosene.
A yard or building full of rubbish.

These and many other causes result in fires that snuff out lives and do untold property damage.

Department of Lands
and Mines

Fire Commissioner's Office,
Department of the Treasury

BAPTIST MINISTER COMING TO LACOMBE

Mr. Hargraves who is coming from Victoria to take charge of the Lacombe Baptist Mission will be in town in a few days to locate a house to make his home here. He is the son of Mr. Hargraves, Post Master, in Calgary, his ministry to begin November 1st.

TOWN OF LACOMBE

NOTICE IS HEREBY GIVEN that at the next regular meeting of the Council of the Town of Lacombe to be held on October 18th, 1932, a by-law will be introduced to close certain streets and lanes in Plan 150 situated in the extreme north-west part of the Townsite. Particulars may be obtained from the undersigned by any persons interested or affected.
DATED this 21st day of September, 1932.

Lewis P. Minkler,
Secretary-Treasurer.

TOWN OF LACOMBE

Tenders For Purchase of Raw Land
Tenders will be received by the undersigned up to noon on Tuesday, October 18th, 1932, for the purchase of 85 acres more or less, of raw land in Section 13, Township 39, Range 27, West 4th Meridian at the junction of the Red Deer and Blindman Rivers. Full particulars as to terms, etc., may be obtained at the Town Office. The above described land is what was formerly known as the hydro-electric power plant. Highest or any bidder not necessarily accepted.

Dated this 22nd day of September, 1932.
Lewis P. Minkler,
Secretary-Treasurer.
